

## Accellera Federated Simulation User Group Authorization to Participate

The Federated Simulation Standard Working Group was approved as an official Working Group by the Accellera Board of Directors in June 2024. Since the official WG is only open to Accellera members, a Federated Simulation User Group has been established in parallel as a discussion platform for cross-industry coordination and collaboration. This User Group is open to participation by the community (non-members) subject to Accellera's Policies & Procedures.

If you wish to participate in the Federated Simulation User Group, please fill in, sign and return this form to the Accellera office by email to [lynn@accellera.org](mailto:lynn@accellera.org).

I request to participate in the Accellera Federated Simulation User Group (FSUG). By joining the user group, I have read, understand and agree to the following:

- I have read, and agree to abide by, Accellera's IP Rights Policy and Policies & Procedures at <https://www.accellera.org/about/policies-and-procedures>
- I understand non-member participants are given access to the FSUG as a Community Participant and are not granted Accellera membership.
- I agree to provide my name, company name, company country and company email address. Using this information, a user account will be set up for me in the Accellera Workspace so that I can access the FSUG working area, calendar, email reflector, documents and roster during. The FSS Working Group leadership will have access to my information.
- I agree to receive email communications from the FSUG to the email I provide. I can decline further contact by Accellera at any time.

**Privacy:** Accellera does not sell user data. The only data required to participate is name, company, country and email address. Any additional personal information you provide is completely optional. Accellera may email notices, newsletters or other information that it deems relevant to its community. You may opt out of receiving these emails using the link provided in each email.
